## THE CITY OF TORONTO.

The City of Toronto is situated on the northern shore of Lake Ontario, nearly due north from the mouth of the Niagara River. It lies on a plateau gradually ascending from the Lake Shore to an altitude of 220 feet, and covers an area (not including land covered by water) of about 28 square miles. It is generally level with slight depressions at points where minor water courses formerly existed. The River Don flows through the eastern part of the City, and the River Humber along its western limit. The harbor in front of the City (a square mile in area) is formed by an island lying to the south of it.

The name of the City is of Indian origin, meaning "a place of meeting," the site in early times being a rendezvous for Indian tribes for council or war-like expedition. It first appears as a centre of trade in 1749, when the French built a fort and started a small trading settlement under the name of Fort Rouille. Its occupancy, however, was not long undisturbed, as British traders appeared soon from the south, and in the war between France and England the fort was burned in order to prevent English occupation in 1759.

Governor Simcoe chose the site of the City for the Capital of the Province of Upper Can-

ada, and changed the name to York in honor of the Duke of York, son of the then King George III. The town was occupied by the U. S. forces in 1813, and the Legislative Assembly and archives were burned. Self-government was granted in 1817, and in 1834, the population having increased to 9,000, it was incorporated as the City of Toronto.

Since then its progress has been rapid and substantial. The population has doubled practically every fifteen years since incorporation. It is now the second city of the Dominion, and is rapidly approaching first place. The City is noted for its many fine public and other buildings, its parks and beautiful shade trees. It is the Capital of Ontario. The business of the Province is carried on in the Parliament Buildings, a magnificent brown stone structure, beautifully situated in Queen's Park.

As a location for manufacturing and commercial establishments the City possesses many advantages for the production of almost every class of goods. Its growth in every direction is so noticeable that little need be said to prove its claim of having the most favorable conditions for the production and distribution of goods. It has water communication east and west to many important centres, to tide water and to more than one-half the way across the

continent, and has railways to provide exceptional trade handling facilities. In addition to the foregoing advantages, the City is now in a position to offer to manufacturers an abundant supply of cheap power from Niagara Falls.

The government of the City is vested in a Municipal Council, consisting of the Mayor and four members, forming the Board of Control (all five being elected annually by the citizens at large), and twenty Aldermen (three being elected annually from each of Wards Nos. 1 to 6, and two from Ward No. 7 (formerly the City of West Toronto). The Council as a whole is the legislative body of the municipality, and carries on its legislative work through standing committees in the usual way. The Board of Control is the executive body, and as such is responsible for the preparation of the annual estimates and the supervision of matters relating to finance, the appointment of officials, the carrying on of public works authorized by the Council, and the general administration of the affairs of the City, except as to the Departments of Education and Police, the first being under the control of a Board of Education, elected by the citizens, and the latter under the Board of Police Commissioners, which consists of the Mayor, for the time being, the County Judge and the Police Magistrate.

## City Hall.

The City Hall, situated on Queen Street, between James and Teraulay Streets, is a massive brown stone structure, and contains accommodation for the Council and Officers of the Municipality, for the Board of Education and its Officers, and for the Courts of Justice (including the Police Court) and the various Judicial Officers connected therewith.

The site, expropriated in 1884, was originally intended for Court House purposes only, but it was subsequently decided to erect a combined City Hall and Court House thereon. The corner stone was laid on the 21st day of November, 1891, by the then Mayor, the late Edward F. Clarke, M.P., and the work of construction continued for eight years, the building being formally opened for public business on the 18th September, 1899, by John Shaw, Esq., Mayor of the City.

In the tower of the building is a massive clock of British manufacture (the largest winding clock on the continent), and three bells, which are used for striking the quarter hours, half hours and the hours.

The dimensions, cost, etc., of the building are as follows:

| | |
|---|---|
| Frontage | 289 feet |
| Depth | 283 feet |
| Circumference | 1,328 feet |

CITY HALL—*Continued.*

Total floor space .....5.40 acres
Height of tower from sidewalk..... 300 feet
Diameter of clock face..... 20 feet

Weight of bells: smallest (quarter bell), 1,904 pounds; next largest (quarter bell), 3,339 pounds; largest (hour bell), 11,648 pounds.

The total cost (including site, clock, bells, and furniture), did not exceed $2,500,000.

## City Assets and Revenues.

(*From the City Treasurer's Budget.*)

In considering the City debt, the value of the property and other assets possessed by the City should not be overlooked. The estimated value of this property is over $20,000,000, and a large amount of it is revenue producing. This valuation is exclusive of all the public works and services of the City, which have been provided at heavy cost to the taxpayers, and, though not available assets, are required for public use and convenience. The water lots owned by the City, the walks and gardens and other leasehold property, with the Market Block, yield an annual revenue of about $140,000, which will increase from year to year as the leases mature and are renewed. The total revenue from the City properties, exclusive of the Water Works, is about $142,000, and at 3½ per cent. represents a capital of over $4,000,000. In addition the City derives a revenue from licenses, police court fines, cattle market and weigh-house fees, and the street railway service (exclusive of that derived from the Water Works), of about $1,691,962. The estimated revenue this year from the Water Works is $960,000. These, with other revenues, bring the annual revenue of the City to $2,872,062, exclusive of the amount raised by taxation.

## Births, Marriages and Deaths.

The number of births, marriages and deaths in the City of Toronto during the year 1911, as shown by the Registration returns, is as follows:

| | |
|---|---|
| Births | 10,050 |
| Marriages | 5,312 |
| Deaths | 6,328 |

All births and marriages must be registered at the City Clerk's Office, City Hall, within 30 days from the occurrence thereof.

Deaths must be registered at the same office before a permit to bury can issue.

Parents, or occupants of dwellings where births occur, are required to register births.

Clergymen officiating are required to register marriages.

Physicians attending are required to certify as to deaths.

Neglect or failure to register in either case renders parties liable to a fine not exceeding $10 and costs.

## Public Health.

The death rate of the City is 15 per thousand of the population.

The public hospitals in the City are located as follows.

Toronto General Hospital, Gerrard Street East.

PUBLIC HEALTH—*Continued.*

St. Michael's Hospital, Bond Street.
Sick Children's Hospital, College Street.
Western Hospital, Bathurst Street.
Grace Hospital, College and Huron Streets.
St. John's Hospital, Major Street.
Riverdale Isolation Hospital for Contagious Diseases, Gerrard Street East.

The ordinary ambulances for cases of non-contagious diseases are under the control of the Police and answer to the call of "Main 222." The ambulance for cases of contagious diseases is in connection with the Health Department, and answers to "Main 2729."

In all complaints of nuisances—drop a post card to the Health Department.

In case of accident, the patient, if of adult age and conscious, has the right to state to what hospital or where he wishes to be taken. In cases of children or those in an unconscious condition, the medical attendant, and in cases where there is no medical attendant, the Police, are supposed to direct the ambulance.

In cases where a person is found dead and no medical man has been in attendance, a coroner should be notified, who has authority to issue a warrant to bury after view, or order an inquest, as he may deem necessary.

The City has now a very creditable collection of animals, birds, etc., at Riverdale Park and High Park. At Riverdale Zoo are to be found a varied collection of animals, including an elephant, six lions, a tiger, leopards, polar bears, Canadian, Japanese, Russian and Syrian bears, wolves, monkeys, llamas, deer, etc., also birds of various kinds, including eagles, storks cranes and many species of parrots, wild fowl etc.; also several alligators and a number of reptiles.

In High Park there are several buffalo, moose and elk.

The collection at Riverdale Park has been largely obtained through the efforts of Ex-Alderman Daniel Lamb, in securing their donation by public spirited citizens.

## Payment of Taxes and Rates.

Taxes for 1911 are payable as follows:

1st instalment, including local improvement rates, July 25th.

2nd instalment, September 10th.

3rd instalment, November 11th.

Water rates are payable half-yearly, on May 31st and October 31st.

## Cattle Market Receipts for 1911.

| | |
|---|---|
| Cattle received | 152,310 |
| Sheep received | 143,482 |
| Hogs received | 152,994 |
| Calves received | 31,253 |
| Weigh fees | $7,300.48 |

## Cattle Market Fees, Etc.

The Municipality will collect market fees and sell fodder for live stock at the Market during 1912.

## Building Permits.

Number of permits issued in 1911, 7,296.

Number of buildings erected during the year, 9,869.

Estimated value of buildings under permits issued, $24,374,539.

## Local Improvement Works.

When the owners of property on any street or lane desire a sewer, sidewalk, pavement or curbing, or when the property owners in any locality desire the opening, widening, extension or diversion of any street or lane, application should be made to the City Engineer for a form of petition to the Council for the work or improvement. When such petition is signed by two-thirds in number of the owners representing more than one-half in value of the property to be benefited by the work or improvement, the Council may proceed therewith and assess the cost against the property benefited.

If the names of two-thirds in number of the property owners representing more than one-half in value of the property cannot be obtained, the petition may nevertheless be presented to the Council, and if the Council on the recommendation of the City Engineer finds that the work is necessary, and in the public interest, it may direct that it be proceeded with, unless a majority of the property owners interested representing more than one-half of the value of the property to be assessed petition against the proposed work or improvement within a month after the Council gives notice of its intention to proceed with such work.

Notwithstanding any petition to the contrary, the Council, if it deems the same neces-

sary in the public interest, and by a two-thirds vote of the whole Council, may proceed with any of the above-mentioned works and assess the cost thereof against the property benefited.

The following tables prepared by the City Engineer shew the approximate annual cost of different classes of permanent pavements and sidewalks. Similar information as to sewers cannot be given owing to variations in the cost of excavating different grades of soil. The City Engineer, however, will furnish an estimate as to the cost of sewers upon application being made therefor by property owners interested.

## Fire Alarm Telegraph.

### *Directions to Give an Alarm.*

Upon what may appear as correct information of a fire near your signal box, break the glass, unlock the signal box door and pull the brass hook on the inside door all the way down (once only) and let it go, and immediately the gong inside the box will sound the number. If you do not hear the gong, go to the next nearest box and do as before directed. No alarm should be given for a chimney only on fire, and no box should be pulled more than once for the same fire, except by an officer of the Fire Department.

Never open the box or touch the hook except in case of fire.

Never give an alarm except from the box nearest the fire, unless you have first ascertained that the box nearest the fire will not work.

Do not try to take the key out of the door, as it is "locked in" and cannot be taken out without a relief key.

The list of fire alarm boxes is omitted this year, as in future fire alarms will not be struck on the City bells.

## Police Department.

On the grounds are erected the following buildings:

*Administration Building*—A large commodious building which includes a Post Office, Bank, Customs Office, Banquet Hall, and public offices for the general management of the Exhibition.

*Manufacturers and Liberal Arts*—This building is built entirely of brick and steel, with a floor space of 95,000 square feet.

*Machinery Hall and Electrical Building*—This building is specially designed for heavy machinery and machinery in operation. It is equipped with ample steam power and shafting for the purpose, and has a floor space of 35,000 square feet.

*Industrial and Process of Manufacture Building*—This is a modern brick and steel structure with 86,000 squar feet of floor space. So far as can be learned, this is the only Exhibition building in the world devoted exclusively to the practical demonstration of Processes of Manufacture.

*Art Gallery*—This building, erected on the most approved plan of fire-proof construction, is the largest and most complete fire-proof Exposition Art Gallery on the continent.

*Dairy Building*—This building is built of cement blocks and has a floor space of 25,000 square feet. It is equipped with an up-to-date cold storage plant, and has in addition a fireproof Auditorium which has a seating capacity of 1,500, which is used for lectures, demonstrations, butter and cheese making competitions, etc.

*Government Building*—This building is built of red pressed brick with stone trimmings, concrete and steel. It is laid out in the shape of an "E" and will have a floor space of 40,000 square feet. It will be ornamented with an illuminated dome and massive towers. The cost of the building has been largely borne by the Dominion and Provincial Governments and will be used specially for Dominion and Provincial Government exhibits.

*Horticultural Building*—This building, built in the form of the letter "E," has a floor space of 45,000 square feet, and is constructed of pressed red brick and steel with stone facings. It is the handsomest Exhibition Building on the Grounds, having a dome which reaches the height of 100 feet.

*Railway Exhibits Building* — Built by the principal Railway Systems of Canada for the exhibition of cereals, fish, game, minerals, views and forestry, and agricultural products of the country. This is an exceptionally hand-

some building, having three wings or courts—one for each of the leading railway systems.

*Transportation Building*—Built of red pressed brick with stone trimmings, with concrete foundation and roof supports of trusses of steel. It is 337 feet long by 153 feet wide, and provides 43,000 square feet of space for exhibits of automobiles, motor boats, supplies, etc.

*Other Buildings* — Other separate buildings for exhibits are:—Manufacturers' Annex Building, Women's Building, Educational Building, Natural History, Poultry, Pet Stock and Dogs. There are also separate buildings for telephone, telegraph, police and fire protection purposes.

*Live Stock Building*—Comprises 26 Horse Stables, accommodating 1,400 animals; 16 Cattle Stables, accommodating 1,200 animals; 8 Swine Buildings, accommodating 500 animals; 8 sheep Buildings, accommodating 750 animals.

*Grand Stand*—The new Grand Stand has a length of 725 feet, and a chair seating capacity of over 16,400 people. It is absolutely fireproof, the construction being of steel, reinforced concrete and pressed brick. It overlooks a well laid out half-mile track, on which horse racing, bicycle and automobile racing takes place. The harness, saddle and hunt horses are judged here. In front of this Stand the Special Attractions and Fire-works are displayed.

## Public Libraries.

The management and control of the Public Libraries of the City are vested in a Board of Management, composed of the Mayor of the City and eight others, three of whom are appointed by the City Council, three by the Board of Education, and two by the Separate School Board. The persons appointed by the City Council and Board of Education hold office for three years, and those by the Separate School Board for two years. These members retire in rotation at the end of their respective terms on the 31st of January.

The members of the Board for 1912 are:—Mr. John Turnbull, Chairman; Mayor Geary, Hon. Sir Glenholme Falconbridge, Hon. Mr. Justice Kelly, Messrs. T. W. Banton, W. T. J. Lee, N. B. Gash, K.C., T. W. Self and A. E. Huestis. Chief Librarian, George H. Locke, M.A.; Secretary-Treasurer, Edward S. Caswell.

The Board holds its regular meetings on the second Tuesday of each month, and the Libraries and Finance Committee meets on the next preceding Tuesday.

The Public Libraries are maintained by a tax not to exceed a quarter of a mill on the assessable property in the City.

The Public Reference Library is situated at the corner of St. George and College Streets.

In it are the administration offices and on the ground floor is the College Street Circulating Branch.

The Central Circulating Library is at the corner of Church and Adelaide Streets.

There are branches on Yorkville Avenue, Queen and Lisgar Streets, Annette Street (Western), Broadview Avenue and Gerrard Streets (Riverdale), 1524 Yonge Street (Deer Park), and in the Hillcrest School, north Bathurst Street (Wychwood).

In addition to these Branches there is a Municipal Reference Library in the City Hall, a branch of the Public Library.

The Reference Library and the Branches on Yorkville Avenue, Queen Street West, Annette Street and Broadview Avenue have been built through the generosity of Mr. Andrew Carnegie.

The combined Libraries of the City contain about 180,000 books, of which approximately 75,000 are in the Reference Library. The circulation of books from the Central and branches during the past year was about 500,000. The use of books in the Reference Library is about 200,000 per annum.

On the third floor of the Reference Library is situated the Art Museum where throughout the year there are exhibitions of the various Art Associations of the City. These are under the control of the Art Museum Association, to whom the use of the rooms is given free of all charge. On Saturdays of each week the rooms are open to the public without charge.

The Reference Library is open from 10 a.m. to 9.30 p.m. Circulating Libraries and Reading Rooms, 9 a.m. to 9 p.m.

The offices of the Chief Librarian, and also of the Secretary-Treasurer, are in the Reference Library, corner St. George and College Streets.

The main Newspaper Reading Room is situated on the corner of Church and Adelaide Streets, but all the branches are well supplied with daily papers and periodicals from all over the world.

For the information of the public a bulletin is issued every month giving in dictionary catalogue form a list of all the books received and accessioned during the preceding month at the Central Circulating Library. This may be purchased at any Library for two cents.
